

**REMARKS**

Claims 14-15 have been amended and support for their amendments can be found, for example, in paragraphs [0008], [0030] and [0032] of the originally filed patent application. Claims 1-11, 14 and 15 are currently pending in the present patent application.

***Claim Rejections – 35 USC § 112***

Claims 14-15 stand rejected under 35 USC § 112 as failing to comply with the written description requirement and as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention. In response, Applicants have amended claims 14-15 and again, support for their amendments can be found, for example, in paragraphs [0008], [0030] and [0032] of the originally filed patent application.

***Claim Rejections – 35 USC § 101***

Claims 14-15 stand rejected under 35 USC § 112 because the claimed invention is not supported by either a credible asserted utility or a well established utility. In response, Applicants have amended claims 14-15 per Examiner's suggestion, which is greatly appreciated. Applicants now believe that these claims, as amended, are in condition for allowance.

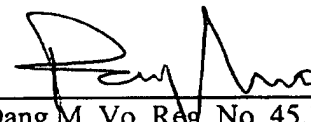

CONCLUSION

Claims 1-11, 14 and 15 are presently pending in this patent application. In view of the foregoing remarks, each and every point raised in the Office Action dated on May 2, 2008 has been addressed on the basis of the above remarks. Applicants believe all of the claims currently pending in this patent application to be in a condition for allowance. Reconsideration and withdrawal of the rejections are respectfully requested. However, should the Examiner believe that direct contact with Applicants' attorney would advance the prosecution of the application, the Examiner is invited to telephone the undersigned at the number given below.

Please charge any fees or overpayments that may be due with this response to Deposit Account No. 17-0026.

Respectfully submitted,
